

XIANGYAN SEED

Hot pepper catalogue

China's outstanding pepper seed company

Vision:

Become the distinguished hot pepper company in China

Idea:

Made in the art of life, continue to create classic

Value:

Honesty, quality first, customer oriented, science & technology

Principle of promotion:

People who trial success, people who promote enrich

Company profile

Hunan Xiangyan Seed Industry Co.,Ltd. (Peppera Seed), a holding subsidiary of Yuan Longping High-Tech Agriculture Co.,Ltd,established in 1988 with registered capital of 5 million USD.It is a provincial leading enterprises of agricultural industrialization which focus on the breeding,production,development and sales of new vegetable varieties,mainly focus on hot pepper varieties.

The company' new headquarter,located in Longwangmiao village, Chunhua town of Changsha county was established in 2014 with the construction areas of 4290 square meters which is a incorporate modernized general building including cold storage room,warehouse,processing unit,quality control,R&D and official business.

The company is committed to commercial breeding system with strong breeding team.Meanwhile, the company built R&D stations and demonstration stations in different ecological regions of China such as Hunan, Hainan, Guangdong, Yunnan, Henan, Shandong, Shanxi and etc. and released more than 200 new varieties of hot pepper,eggplant, cucumber, pumpkin,bitter gourd, sponge gourd,yard long bean, pakchoi and other vegetables and awarded more than 40 items of scientific and technological achievements at different levels.The company established sound marketing network nationwide and cooperated with above 10 Southeast Asia countries in R&D and variety development.The breeding strength and market share of hot pepper of Hunan Xiangyan Seed Industry Co.,Ltd is top 1 in Chinese vegetable seed market.

The company acquired vegetable seed import & export qualification, as well as member of Asia and Pacific Seed Association(APSA),Vice-president enterprise of China Seed Association Vegetable Branch,Vice-Council enterprise of strategic alliance of standardized technology innovation of China hot pepper industry,first batch of AAA credit example enterprises of China Seed Industry,key credit enterprise of China vegetable industry.The registered trademark " Xiangyan" was awarded as Chinese Famous Trademark.

The company insist on honesty,quality first,customer oriented,science & technology as its core values,striving to be a remarkable vegetable seed company in China.It takes good advantages of brand and R&D strength to bring substantial profits to the distributors,farmers,stockholders and staffs and to create colorful vegetable varieties for consumers.

Contents

Upward hot pepper	pag.4
Long & slim hot pepper	pag.21
Long & think hot pepper	pag.31
Special hot pepper	pag.44

A close-up, top-down view of a large quantity of upward hot peppers. The peppers are a vibrant, glossy red color and have a slender, elongated shape with a slightly curved tip. They are densely packed together, with their green stems and calyxes visible at the base of each pepper. The background is a dark, perforated metal surface, likely a strainer or a cooking grate, which is partially visible through the gaps between the peppers.

8.5cm in length, 1.3cm in diameter

Yellowish white to orange red, then turn to bright red color

5g single weight

Uniform fruit in the early and late harvesting period

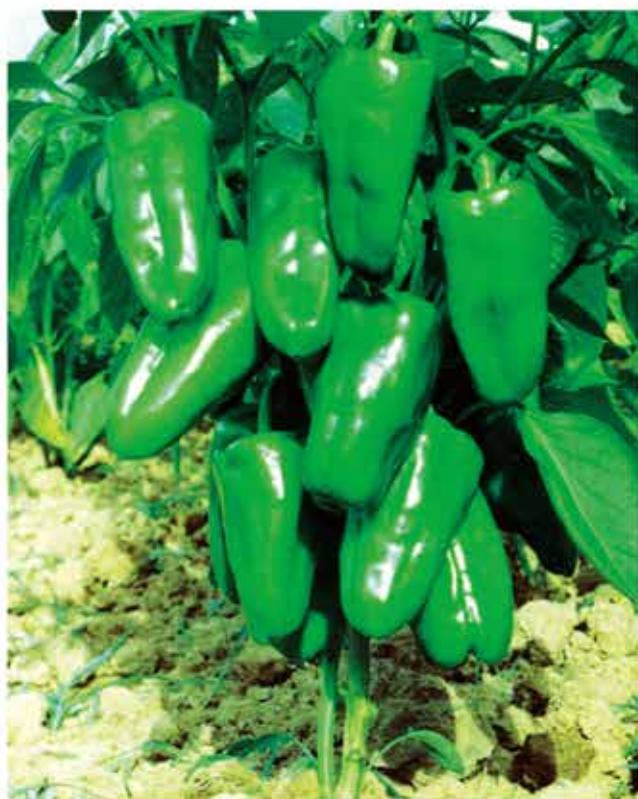

Easy for picking fruit

Strong diseases tolerance

High pungency, SHU70,000-80,000

Xiangyan 8

Lantern shape Light pungency

The plant is 56cm high with 65cm canopy

The fruit is lantern shape, green color

9.0cm*5.5cm in size with 0.5cm wall

80g single weight

Light pungency

Tolerance to high temperature, drought and waterlogging

Strong diseases resistance

H670

Early maturity High pungency

Easy to dry

Strong vigorous growth with wide canopy and small leaves

11cm *2.0cm in size

Green to red color

Fruit is easy to dry with the drying material rate of 20%

High pungency with SHU70,000

Strong comprehensive diseases tolerance

Suitable for dry processing, chilli sauce

H16-595

Vigorous plant High pungency Strongdisease resistance

Plant height 85cm with dark green leaves

10-12cm*1.8cm in size,10g single weight

Firm fruit with glossy skin

Green to orange red to red color

High pungency with SHU 70,000

Good fruit setting ability

Strong diseases resistance

Suitable for picking green and red fruit

H19-1323

Medium maturity Smooth skin Pungency with flavor

Downward type

Vigorous plant with branches

Excellent fruit setting ability

10cm *1.0cm in size

Uniform fruits

Green to red color

Fruit is easy to dry, suitable for dry processing

Excellent quality of dry fruit

702A-3-3

Early maturity High pungency

High Capsanthin content

10-11cm*1.6cm in size

Pungency, SHU90,000

Good continuous fruit setting

Strong comprehensive diseases resistance

Easy to dry, 22% dry processing rate

Excellent quality of dry fruit

Suitable for dry, chopped chilli, chilli sauce

H14-616

Medium late maturity Prolific High Pungency

High Capsaicin type

Vigorous plant

10cm *1.8cm in size

7g single weight

Extra pungency, SHU300,000

Fruit is easy to be dried

14.7% of dry material content

Good tolerance to drought

Suitable for extracting Capsaicin

T23-555

Red color type Early maturity Dry pepper

Erect plant with hard branches
14-15cm*2.7-3.0cm in size
4-6g single weight of dry fruit
Concentrating fruit setting
30-40 fruits per plant
Easy to dry, high processing rate
High color value
Used for chilli powder and extracting red pigment

Special hot pepper

Medium maturity Prolific High pungency

Vigorous growth, semi-erect plant, hard branches
Green to red color. Light wrinkled skin
9.5cm length, 3.0cm diameter
Around 13g single weight
Extra pungency, SHU700,000
Suitable for dry processing
